Mission/Goal

The Cornell Agriculture and Food Technology Park Corporation shall have the following two-fold mission:

To serve as a financially self-sustaining entity to foster the creation, retention and expansion of agriculture and food-related technology-based facilities and related businesses for the benefit of both the State and local economies;

To foster partnerships between the New York Agricultural Experiment Station and the enterprises seeking commercial applications of technology related to agriculture and food sciences as a means of enhancing the long-term viability of the Geneva Experiment Station.
